Interim report of the directors

We have pleasure in presenting the interim report of Südzucker International Finance B.V. (‘SZIF’, also ‘the Company’) for the six-month period 1 March 2010 up to and including 31 August 2010.

Group structure

SZIF was incorporated on 13 January 1994. The Company is a wholly-owned subsidiary of Südzucker AG, Mannheim/Ochsenfurt, Germany.

The Company’s purpose is to finance affiliated companies through, among others, the issuance of public loans.

Activities during the first half of the financial year

On 8 June 2010 SZIF has paid back the EUR 300 million 6.25% bond.

Facilities

To facilitate the loans to Südzucker group companies, SZIF has the following facilities at its disposal:

- On 27 February 2002 a 5.75% bond was issued with Deutsche Bank AG to an amount of EUR 500 million for a 10-year period.
- On 30 June/15 August 2005 a 5.25% perpetual hybrid bond was issued to a total amount of EUR 700 million.
- On 30 June 2009 a 2.5% convertible bond was issued to a total amount of EUR 283 million with a final maturity on 30 June 2016. Within a conversion period from 10 August 2009 till 20 June 2016 the bond can be converted when meeting the conversion conditions into ordinary bearer shares with par value of Südzucker AG.

Results

The net results for the first half of the financial year ended 31 August 2010 after taxation, amounts to, EUR 1,087,023 (same period 2009/10: EUR 1,373,212).

Financial risk management

All proceeds of borrowings are lent to affiliated companies. This poses a significant concentration risk to the Company, which is inherent to the activities of the Company. Südzucker AG, Mannheim, has guaranteed the above-mentioned facilities.

All the Company’s borrowings are of a long-term nature. The proceeds from borrowings are on lent on a short-term basis. To cover the interest exposure existing through this maturity mismatch the short-term loans have a fixed interest rate. In the loan policy agreement the companies have decided, that they have the intention to use the total amount of the proceeds for a significant period of the year.

The Company is not exposed to currency risk, as all its activities are denominated in euro or fully hedged with currency forwards or currency swaps.

Outlook for the second half of the financial year 2010/2011

The Company's management anticipates a lower income for the second half of the financial year 2010/11 (like in the previous year 2009/10). The mismatch between the incoming and outstanding facilities will be greater in the second half of the financial year and therefore the expected income at the end of the year will be roughly equal to the income of the first half of the financial year.

The expectation for the second half of the financial year is that we do not expect additions or changes in the normal processes.

Directors' responsibility statement

All directors confirms that, to the best of his or her knowledge:

- the financial statements which have been prepared in accordance with Part 9 of Book 2 of the Netherlands Civil Code, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company;

- the Report of Directors includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties they face as required pursuant to section 5:25d(8)/(9) of the Dutch Financial Markets Supervision Act (Wet op het financieel toezicht).

Notes

General

1 Group affiliation and principal activity

Südzucker International Finance B.V. (‘SZIF’, or the ‘Company’) was incorporated under Dutch law on 13 January 1994. All shares were issued to Südzucker AG, Mannheim/Ochsenfurt, Germany. The principal activity of the Company is to facilitate the financing of Südzucker AG and group companies.

2 Basis of presentation

These financial statements have been prepared in accordance with the provisions of the Netherlands Civil Code, Book 2, Part 9, RJ 394 and the accounting principles generally accepted in the Netherlands.

The accounting policies have been consistently applied and are equal to those of the financial statements for the year ended on 28 February 2010. The 28 February 2010 figures were derived from the audited statutory financial statements for the year then ended.

The financial statements are prepared in thousands of EUR.

3 Significant accounting policies

3.1 General

In general, assets and liabilities are stated at the amounts at which they were acquired or incurred. The balance sheet and income statement include references to the notes. The financial statements are expressed in EUR ‘000.

3.2 Assets and liabilities

In general, assets and liabilities (except for group equity) are stated at the amounts at which they were acquired or incurred, or fair value. If not specifically stated otherwise, they are recognised at the amounts at which they were acquired or incurred. The balance sheet and profit and loss account include references to the notes.

3.3 Foreign currencies

Transactions, receivables and payables

Transactions denominated in foreign currencies during the reporting period are recognised in the financial statements at the exchange rate ruling at the transaction date.

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange prevailing at the balance sheet date. Exchange differences resulting from settlement and translation are charged or credited to the income statement.

However during the reporting year, no transactions, assets or liabilities were denominated in foreign currencies.

3.4 Loans to shareholder and loans to affiliated companies
Loans to group companies included in financial assets are stated at amortised cost

The interest rate charged on loans to group companies has been set in conformity with the tax ruling obtained from the local tax authorities.

3.5 Receivables
Trade receivables are recognised initially at fair value and subsequently measured at amortised cost. When a trade receivable is not collectible, it is written off against the allowance for trade receivables.

3.6 Cash and cash equivalents
Cash and cash equivalents consist of cash at banks and deposits with a maturity of less than twelve months. Current account liabilities at banks are recognised under bank overdrafts forming part of current liabilities.

3.7 Equity
The Company has no statutory of mandatory reserves. .

3.8 Non-current liabilities
Bonds included in non-current liabilities are stated at amortised costs.

Deferred premiums and discounts on bonds are amortised over the term of the bonds. The deferred part of the premiums and discounts is included under the receivables and current liabilities.

3.9 Other payables
Other payables include short term liabilities relating to unpaid interest on the bonds. These are stated at amortised cost.

3.10 Deferred tax liabilities
Deferred tax liabilities are recognised to provide for timing differences between the value of the assets and liabilities for financial reporting purposes on the one hand and for tax purposes on the other. Deferred tax liabilities are calculated based on the tax rate prevailing on the balance sheet date or the rates that will apply in the future, insofar as these have been set by law.

Accounting policies for the income statement

3.11 General
Results on transactions are recognised in the year in which they are realised; losses are accrued as soon as they are foreseeable.

Income and expenses are recognised on an accrual basis in accordance with the substance of the relevant agreements.

Premiums and discounts on loans are amortised over the term of the loans in accordance with the effective interest method.

Interest paid and received is recognised on a time-weighted basis, taking account of the effective interest rate of the assets and liabilities concerned. When recognising interest paid, allowance is made for transaction costs on loans received.

3.12 Interest income and expense

Income from financing activities is determined as interest income received from inter-company financing activities. Interest income and expense are time apportioned.

3.13 Taxation

Corporate income tax is calculated on the profit/loss before taxation in the income statement, taking into account tax-exempt items and non-deductible expenses, and using current tax rates.

Cash flow statement

The cash flow statement has been prepared using the indirect method. The cash items disclosed in the cash flow statement are comprised of cash and cash equivalents.

Financial risk factors

The Company’s activities might expose it to a variety of financial risks: market risk (including fair value interest rate risk and price risk), credit risk, liquidity risk and cash flow interest rate risk. The Company’s overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company’s financial performance. SZIF uses derivative financial instruments to cover certain risk exposures.

- *Market risk*
  a. Foreign exchange risk
     The Company is not exposed to foreign currency risk. All its assets and liabilities are denominated in euro and no transactions in foreign currency were performed during the reporting period.

  b. Price risk
     The Company’s price risk is limited as the bonds issued by the Company. These amounts are secured by Südzucker A.G. and on lent within the Group. The price risk is therefore limited. The Company is not exposed to equity or commodity price risk.

- *Credit risk*
  The Company has significant concentrations of credit risk. All of the proceeds of borrowings are lent to affiliated companies.

- *Liquidity risk*
  Prudent liquidity risk management implies maintaining sufficient cash in order to ensure payment of short-term liabilities.

- *Cash flow interest rate risk*
  The Company’s external borrowings are all at a fixed interest rate until the maturity of these borrowings. The loans lent to the parent company and affiliated companies have a fixed interest rate. As such, the Company’s interest rate risk is limited.
